

Cheatsheet: Common US Car Insurances and Policy Insights

Which company and what plan details to choose is important for the best coverage.

Compare Providers

Insurance Companies

Common US insurance companies are State Farm, Geico, Progressive, Allstate, Liberty Mutual & Nationwide.

Coverage Type

Personalized Add-Ons

Based on your vehicle, driving experience, climate and driving amount, you choose the right details.

Bundles

Customer Savings

Most insurance companies offer different insurances and offer savings when you bundle, e.g. home& auto.

Deductible

Bills vs Claims

A higher deductible lowers your monthly bill, but keep in mind if you can pay in case of a claim.

Transparency

Be honest

Lying about you, your vehicle, driving habits or other drivers can cause your insurance to not cover an accident.
